Joanna Bulla

Python Developer

My name is Joanna Bulla, I am Uruguayan and currently living in Resistencia, Chaco, Argentina. For the past 2 and a half years, I have been working at Globant. My career started as a Java developer, but I switched to Python and now work as a backend Python developer. I am self-taught and enjoy continually learning. I am responsible, proactive, have a logical way of thinking, work well in a team, excel at problem-solving, have a passion for my work, and always deliver projects on time. I am looking for opportunities to further advance in my career and continue my professional growth.

Language

English - Upper Intermediate

Spanish

Experience

2021 - 2024

Globant - Chaco

Python Developer

- Client: ACV. ACV auctions is a full-service wholesale online auction platform. With that client i worked on some features for billings, filters, balances, invoices and more. We used fastAPi and Django for differents API for that platform. In FastAPi we made a RestFul API for invoices.
- Client: EY. With this client, I'm actually working. I´m working with OpenAI to develop some features, using FastAPI.

Reference

Andres Gutierrez

Sr Python Developer, Globant
